WANT GAME FOR THANKSGIVING

High School Squad Defeats Enterprise 25 to 0—Visitors Were Heavy But Had No Pep.

Efforts will be made to get the football team of the school at Bainbridge, Ga., to come to Dothan and play at Baker Field Thanksgiving. Of course the opposing team will be none other than Charlie Farmer's High School squad.

Unfortunately for the good of the sport in this section there are only a few teams in Southeast Alabama. It is consequently difficult to arrange games. Ozark and Enterprise will play Thanksgiving, so that leaves Dothan out unless Bainbridge or some other good seaport town can be persuaded to render first aid to the needy.

Good Game.

The number of persons to see the game yesterday was really surprising, and it is doubtful if as much interest has ever been shown at any previous game here. Many of the boys from town, older in age, but young in enthusiasm, lined the chalk lines and cheered the locals to victory. The young ladies, and especially those of the school girl age, were present. They got interested to the extent that most of them left the grand stand for positions on the field. They followed the different plays closely, moving to and fro, as the line of struggling men went slowly from one part of the field to another, having to fight every inch of the ground.

That was a football game, even if the Enterprise bunch got trounced 25 to 0. There were many good plays pulled off and the visitors put up a stiff fight but seemed to lack that little old thing called pep. They were heavy enough and had the notion but they just couldn't produce the goods.

Charlie Farmer acted as referee and he gave the visitors everything that was coming to them. His decisions were certainly fair. Charlie has been coaching the High School squad and his presence was a great help to the local squad yesterday. They appeared to play with more confidence than usual.

All the bunch put up a fine game and it may not be fair to single any particular ones, as they all did so well, but if such were done the honors would doubtless go to Cook Roberts and Frank Page.

The locals played in Enterprise a few weeks ago and were defeated 25 to 6, or something like that. From all accounts they were scared at Enterprise and showed about as much pep as a dry horse when his day's work is over. It was all different yesterday.

And now everybody is looking to Thanksgiving.

High School Lineup.

Simmons, center guard, Page, right guard, Hunter, left guard, Murrell, right tackle, Malone, left tackle, Williams, right end, Underwood, left end, King, quarterback, Frank Page, right halfback, Roberts, left halfback, Aver, fullback. Cherry, Johnson, Burdeshaw, and Pilcher were the substitutes who went in the game in the second half.

AUSTRIAN AVIATORS BOMBARD VENICE

HILLSTROM PUT TO DEATH BY FIRING SQUAD

Vienna, Austria, via London, Nov. 19.—Venice has again been bombed by Austrian aeroplanes. Official announcement was made here today that an aerial squadron attacked military establishments of that city yesterday afternoon.

The announcement follows:

"Navy headquarters announced that on the afternoon of November 18, one of our seaplane squadrons successfully dropped bombs on the forts at San Nicola and Alberoni and the arsenal, aviation, gas works, railway station and several barracks at Venice. Notwithstanding the heavy fire of anti-aircraft guns and the attacks of three hostile aeroplanes, our squadron returned with complete safety."

FARMERS SCHOOL AT SIGMA TODAY

Dr. Howard C. Wilson and Professor D. J. Burleson of Auburn, and Miss Nellie Tappan of Montevallo, are conducting a "moving school" for farmers at Sigma today.

The school was well attended Friday, according to reports, and those present appeared to be greatly interested in the work of the agricultural experts who are teaching diversified farming. The meeting was arranged largely through the efforts of L. J. Thompson, county farm demonstration agent, and the Sigma Agricultural school.

DOCTOR WHO LET BABY DIE HAS BEEN SUSTAINED

Chicago, Nov. 19.—An autopsy over Baby Bollinger, the defective infant who died after his mother and the attending physician agreed not to attempt to prolong life, was held Thursday by H. G. W. Reinhardt, coroner's physician and W. D. McNally, city chemist. Their conclusions are said to have sustained previously expressed beliefs that the infant was doomed either to death or a life of anguish and to have justified Dr. H. J. Haiselden, who allowed the child to die when an operator might have saved its life.

IF KIDNEYS ACT

BAD TAKE SALTS

Says Backache is Sign You Have
Been Eating Too Much
Meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and boggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds, and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life-saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia water drink.

**WHAT THE SOUTH THOUGHT
OF BOOKER WASHINGTON**

From the New York World.
Among the many tributes to the memory of Booker T. Washington from men prominent in public life, by all odds the most notable, as it is also in the circumstances the most significant, is the official statement of the Governor of Alabama:

"In the death of Booker T. Washington the colored race has lost its greatest leader. He was a man of unusual force and executive ability, and in many respects rose above the environment of race. In my opinion, his efforts toward the development of his people have been of great benefit to them and to the entire South. Born a slave, living a life of earnest endeavor, and at his death the chief executive of an institution of nation-wide reputation created by his own brain and energy demonstrates to the world the unbounded possibilities open to those whose purpose is to accomplish something, and marks him as one of the able men of his time."

More than a year ago, when H. C. China was reorganizing her gov-

ernment and making ready to enter upon a new policy of existence, changing imperial to republic forms, Yuan Shih Kai, the newly elected president spoke for his people and asked the prayers of Christian countries for the welfare and prosperity of the new order of things set up in China. A wave of satisfaction swept the breasts of the mission workers for they believed at last Confucius was calling to Christ.

But this action of the Japanese emperor is a blow to their expectations. It looks like a reversion to the old types, where they had hoped the symbol of religious progress.

And yet there is no reason to really despair. The last thing that a nation surrenders is its religion, be that religion a tissue of superstitions or a creed of enlightenment. Japan may fight with continentals guns, but her soldiers are fired with the empire-old spirit of fatalism. She may wear a frock coat and silk hat, foregoing her picturesque national dress, but she will, on momentous public occasions, bark at the gospel of Christ and revert indifferently to the ancestral worship that was the religion of her forefathers.

But the teachings of the missionaries have borne fruit in a breaking down of many old social and commercial restrictions. To these missionaries is due the credit for a broadening of Oriental views, a softening of Oriental prejudices. They have not labored in vain, although the fruit of those labors is not always what they hoped. All things considered, they have accomplished much and they have laid the foundations for still greater GALEY 5 successes and higher achievements. A quarter of a century ago a Japanese emperor would not have worn European clothes or gone buying in the shops of his capital as Yoshihito does. He has grown democratic in his habits; another quarter of a century may break down his religious traditions and bring him permanently to the church of Christ. And if he does not live that long, then his son may round out the circle of reformation. Yoshihito in a way, represents a modern Japan, for he is progressive, and with an eager desire to learn what the outside world may teach him for the good of his people. And in this way he is largely a product of the efforts of the missionaries who labor "in the vineyards of the Lord," for he has absorbed a part of the spirit of their teaching.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years Standing, Referred by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell.

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it.

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling?

So, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

DOTHAN'S BEST STORE

has achieved wonderful results this season in its ready-to-wear department.

The signs of the return of prosperity were plainly visible before we went to New York this summer. We had made fair crops and the price was again good.

Under war conditions, the world had consumed fifteen million bales of cotton during the twelve months. A wonderful surprise to all except those of the "inner circle."

Twas true the world had earned over about six million bales of cotton, but twas also true that only about thirty million bales of this year have been taken up to date.

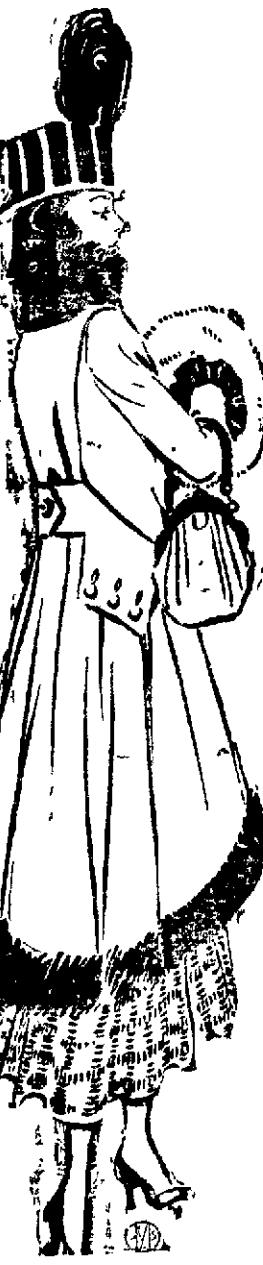

The conservative estimate of 1915 crop was eleven million bales.

The world is edging toward another year of the same crop. Cotton and cotton have been the chief factor in the economic life of the country without which we cannot live. Without cotton there is no cotton trade.

With the above fact as a basic to work upon we sought more and better ready-to-wear garments before we had a week of the first cold day when we started. This, of course, necessitated additional purchases. Two-thirds of our present stock has been turned over to us by our New York office and represents the latest in style developments.

We keep in touch with every style and fashion. If you know how to select the correct modes from the catalog, you will have if you select your wearing apparel here, you will have that satisfaction that only comes to a woman who knows.

Two laborers were engaged to deepen a well which had been dry. One of them set to work in the top part of the well.

The first ordered the other man to dig a little on his side, then "dig a little more on my side," until the latter said, "I can do no more." The first then said, "You sit up there and eat your tongue while I have to do all the work."
